ARMENIAN ROOTS. INTERNATIONAL BUYERS.

Rooted in Armenia. Grown for the world.

Fresh Armenian fruit for importers, wholesalers and distributors.

OUR PRODUCTION BASE

30+ ha

Our own orchards

300+ ha

Orchards of fellow FPA producers we represent

Our own orchards. Greater supply.

We are Armenian fruit producers. We supply our own harvests alongside fellow FPA producers we represent, with quality, packing and delivery agreed for each order.

PEOPLE. PRODUCTION. PARTNERS.

Working together, growing further.

We began farming in 2019. Founded by **Arthur Hayotsyan** and **Edgar Petrosyan**, Noahs Roots grows fruit in its own orchards and supplies buyers alongside fellow producers it represents within FPA.

We are a member of the Fruit Producers' Association (FPA), a non-profit organization supporting modern horticulture, knowledge sharing and market development.

Co-founder **Arthur Hayotsyan** serves on FPA's Management Board. FPA represents growers' interests in agricultural policy dialogue with public institutions.

FRUIT PRODUCERS ASSOCIATION OF ARMENIA

How your supply comes together

01	Modern growing	Italian and European nursery stock, protective nets, trellises, drip irrigation and METOS weather monitoring support modern growing.
02	Packing to your brief	Fruit size, packaging and labels are agreed with you before packing.
03	Cold chain coordination	Cold storage and refrigerated transport are coordinated around the fruit, route, destination and delivery plan.

Availability, supporting documents, certification and commercial terms are confirmed for each order.
